EXTRA-EU MOBILITY 2025/2026

Deadline 6 March 2025 at 1,00 pm

Extra-UE Mobility enables **first, second and third-cycle students** to spend a period of study at a foreign Extra-EU University that has signed a cultural and scientific cooperation agreement with the University of Florence.

The call and information are published at the School's web page:

<https://www.ingegneria.unifi.it/vp-518-extra-eu-mobility-english-version.html>

Extra-EU mobility is compatible with Erasmus+ mobility as long as the semesters do not overlap.

CALL ERASMUS+ FOR STUDY ADMISSION REQUIREMENTS

- ✓ **Students regularly enrolled (including part-time) in a study program at the University at the first, second or third level (including doctorates, master courses and specialization schools). Students enrolled in single courses cannot participate**
- and**
- ✓ **Students who possess language proficiency requested at the foreign Institutions indicated in the preferences.**

BANDO MOBILITA' EXTRA-UE PURPOSE OF THE MOBILITY

Planned activities abroad can be:

- ✓ **Carrying out a study period** and taking the examination at the end of the teaching units
- ✓ **Performance of a period of internship** (postgraduate internships are not permitted), if the availability of the foreign institution to accept students for internship only is already known.
- ✓ **Preparation of the final project work** or part of it on the basis of a work plan approved by the supervisor and the lecturer responsible at the host institution.

SELECTION CRITERIA

1. Evaluation of the candidate's career:

- ✓ **regularity in studies** (for a maximum of **35 points**);
- ✓ **profit** (for a maximum of **35 points**).
- ✓ **language proficiency**

For each language declared by the applicant, it will be considered only the highest level. No scores are awarded for the knowledge of the Italian language. (for a maximum of **15 points)**

2. Motivation:

- ✓ **Motivation is awarded a minimum of 8 points up to a maximum of 15 points.**

Motivation is evaluated by considering:

- **the coherence between application and motivation;**
- **the proposed program of study (provisional Learning Agreement).**

Please Note: Motivation lower than 8 points is considered as not eligible

Criteria to select Host Institution

- 1. ISCED code:** it is the code of the disciplinary area in which it is possible to do the Mobility.
- 2. Knowledge of the language** required by the foreign institution

The list of Host Institution with which there is an agreement with the School of Engineering is available at the link <https://ammissioni.unifi.it> or on the School webpage <https://www.ingegneria.unifi.it/vp-518-extra-eu-mobility-english-version.html>

How to choose the exams to take abroad

To facilitate the research on the School's web page <https://www.ingegneria.unifi.it/vp-518-extra-eu-mobility-english-version.html> there is a file with all **AGREEMENTS** available at the School of Engineering.

When you have selected the exams to be taken abroad, **it is necessary to obtain equivalence from the relevant UNIFI lecturer**. This form is not necessary for free-choice exams.

If you are interested in a **Extra-EU internship**, you should first check whether the contact person for the agreement is from the department to which the course in which the student is enrolled belongs. In this case, the contact person must be contacted to ensure that there is a real possibility of an internship at the chosen location.

How many Host Institutions can be selected

Each student can select a maximum of 2 Host Institutions, and must prepare the study plan (Learning Agreement) mandatory for the first choice but it is strongly recommended also for the second choice.

However, we suggest to verify available exams for BOTH locations.

When choosing the semester of mobility, check in the excel file the deadlines for submitting the application at the foreign Institution.

There is a maximum or a minimum of credits that can be taken during the Extra-UE Mobility

- **The School of Engineering establishes a maximum of 60 CFU per year (30 CFU for one semester) to be acquired at the Host Institution**
- **No minimum number of credits is required but it is necessary to acquire at least 2 credits for each month of mobility in order to benefit from the scholarship. Credits registered in the career will be taken into consideration.**

How to present the application

- The application must be done only on-line through this link: <https://ammissioni.unifi.it/INFO/>
- Once the application has been completed, **it is mandatory to fill in the Learning Agreement** before submitting the application. The obligation to fill in the Learning Agreement is only valid for **the first choice**.
- The Learning Agreement drawn up at this stage **is provisional** and may be modified at a later stage.

Publication of Rankings and Acceptance of Institution

The rankings complete with merit score, location and number of proposed months will be announced via the Turul application.

- If the first preference is assigned, it is mandatory to accept the assigned place. **Anyone who does not accept is automatically excluded from the ranking**
- If the second choice is assigned, it is mandatory to choose one of the following two options:
 - Accept the one proposed
 - If the student does not wish to accept the proposed institution, select the option 'I wish to remain on the ranking list' pending a new assignment by sliding scale. The seat not accepted by the student will not be reassigned to him/her in the event of a sliding scale.
